

Welcome to The 3rd Pediatric Cancer Research and Precision Medicine (PCR-PM) Conference in Oslo 23.-24.10.2023

We would like to provide a venue for all the scientists working in the field of pediatric cancer research and precision medicine to share their knowledge and experience on this 2-day conference in the beautiful city of Oslo.

Key note speakers:

Dr. Bastiaan Tops (Princess Maxima Center for Pediatric Oncology, Bilthoven, Netherlands) and **Prof. Dr. Per Kogner** (Karolinska Institutet, Stockholm, Sweden)

The primary objective of this meeting is to stimulate national collaboration and facilitate interaction between researchers and clinicians working with pediatric cancers. The overall goal of the network is to promote pediatric cancer research of high quality in Norway. The conference shall mainly include talks from the invited international speakers and research groups working in pediatric cancer in Norway. This conference shall provide excellent opportunities for collaborations and networking and open new ideas and avenues in the field of pediatric cancer.

The 3rd Pediatric Cancer Research and Precision Medicine Conference will be held at Oslo University Hospital Rikshospitalet (Oslo) from October 23. – 24, 2023.

Program: Please find enclosed the tentative program

Registration: Please use the enclosed form

The conference is proudly sponsored by:

**Welcome note from Britt Ingunn Wee Sævig,
chief advisor at The Norwegian Childhood Cancer Society**

“Barnekreftforeningen (The Norwegian Childhood Cancer Society) together with the Department of Paediatric Research in Oslo, is very proud of being able to welcome you to exciting and eventful research days in Oslo. As the largest contributor to Norway to research on childhood cancer, we look forward to hearing and learning more about the research that benefits children and young people with cancer.”

Welcome note from Prof. Dr. Ellen Ruud, head of the Childhood clinic at OUS

«As head of the Division of Paediatric and Adolescent Medicine at Oslo University Hospital and a professor in paediatrics at the University of Oslo, I'm excited to welcome everybody to the 3rd Pediatric Cancer Research and Precision Medicine (PCR-PM) Conference. We are happy to host this event, which will be a perfect opportunity to meet experts, increase knowledge and discuss topics related to pediatric cancer and precision medicine. Together, we will build the basis for further development of childhood cancer research and treatment in Norway”

Purpose:

- ❖ The purpose of this meeting is to stimulate national collaboration and facilitate interaction between researchers and clinicians working with pediatric cancers
- ❖ The overall goal of the network is to promote pediatric cancer research of high quality in Norway
- ❖ The conference shall mainly include talks from International speakers from the field of Pediatric Cancers
- ❖ Also, individual research groups working in Pediatrics Cancer Research in Norway will present their projects
- ❖ This conference shall provide excellent opportunities for collaborations and networking and open up new ideas and avenues in the field of pediatric cancer

Best regards from the PCR-PM 2023 organizing committee:

Helga Guldvog, Dr. Ida K. Knapstad, Dr. Aina Ulvmoen, Dr. Jochen Büchner, Dr. Monica C. Munthe-Kaas, Prof. emeritus Finn Wesenberg, and Prof. Dr. Lars O. Baumbusch

Important information:

- ❖ Location: Oslo University Hospital Rikshospitalet, Sognsvannsveien 20, 0372 Oslo at the **Green Auditorium**
- ❖ There will be no conference fees due to generous support from the *Norwegian Childhood Cancer Society*, the *Children's foundation Oslo University Hospital* and the *Oslo University Hospital*
